

Request for Proposals - Medical Education Grants

Addressing knowledge gaps in individualized FcRn treatment for the management of generalized myasthenia gravis (gMG) care

argenx supports the global healthcare community's independent initiatives (e.g., research, quality improvement, and education) to improve patient outcomes in areas of unmet medical need that are aligned with argenx medical and scientific strategies. Through this RFP, it is our intent to support IME/CME programs in the following areas of interest.

Areas of Interest

- Increase understanding and competence of mechanism of action, efficacy, safety, and place in therapy of the use of FcRn antagonists in patients with gMG
- Identify patients who are appropriate candidates for FcRn therapy and develop an individualized treatment plan in terms of dosing frequency, emerging route of administration while incorporating patient preference
- Increase competence and performance on optimal dosing and safety profile of FcRn antagonists in terms of infections, reduce treatment burden of traditional therapies, and improve patient's quality of life

Program Format Considerations

- Program to start after May 1st, 2025
- Enduring content for at least 12-months after launch of program
- Preference for round table or a variety of content formats as recommended by IME provider

Target Audience

- Minimum IME/CME requirement, 1 credit

About argenx

Decisions for grants are made through a formal, grant review and decision-making process. The Grant Review Committee assesses and approves applications based upon need, design, scientific rigor, independence, and compliance. Approvals depend on available funding, the volume of requests, and alignment with argenx's areas of interest.

TogetherWe
Discover

- Educational credits in North America
- Neurologists, neuromuscular specialists and advanced practice providers

RFP Timeline

- RFP Open: January 20th, 2025
- Application submission deadline: March 1, 2025
- Grant award tentative notification: no later than April 15st 2025
